

Summer of 2024 Math Assignments

For students entering 5th Grade

Dear Parent or Guardian,

I am pleased to tell you that we will be using IXL for our summer math practice. One of the best things about IXL is that your child can access it from home, so you have a chance to see their progress.

To get your child started on your home computer or tablet, please follow these easy steps.

1. Go to <https://www.ixl.com/signin/sjsnashville>
2. Enter your child's username and password and click "sign in"
3. Click on the assigned skill and start learning. You must earn a 90 or above for each assigned skill. Earning a 100 will give you bonus points in the first quarter of fifth grade.

New Students to SJS: If you are unable to login to the St. Joseph Domain, please log into IXL as a guest. Enter the IXL math skill for 5th grade and complete for 90 points or above. Please take a screenshot of the final points and email the photo to angiedouglas@stjosephnashville.org before the first day of school.

The following IXL math skills have been assigned for the summer of 2024:

- A2 Place Value
- B3 Add and Subtract Whole Numbers up to Billions
- D10 Multiply 2-digit Numbers by 2-digit Numbers
- E6 Divide Multi-digit Numbers by 1-digit Numbers
- J1 Fractions Review
- J3 Write Fractions in Lowest Terms

This assignment is due by the first day of school. **In addition to the assigned IXL skills, if your student has not memorized their multiplication facts, I cannot express how important it is that they start fifth grade knowing all facts 0-12.**

Sincerely,
Angie Douglas
