

Summer of 2024 Math Assignments
For Rising 4th Graders

Dear Parent or Guardian,

I am pleased to tell you that we will be continuing the use of IXL for our summer math practice. If your child is not familiar with summer assignments, one of the best things about IXL is that your child can access it from home, so you have a chance to see their progress.

To get your child started on your home computer or tablet, please follow these easy steps.

1. Go to <https://www.ixl.com/signin/sjsnashville>
2. Enter your child's username and password and click "sign in"
3. Click on the assigned skill and start learning. You must earn an 80 or above for each assigned skill. Earning a 100 will give you bonus points in the first quarter of fourth grade math!

New Students to SJS: If you are unable to login to the St. Joseph Domain, please log into IXL as a guest. Enter the IXL math skill for 3rd grade (review for 4th grade) and complete for 80 points or above. Please take a screenshot of the final points and email the photo to christineholcomb@stjosephnashville.org before the first day of school.

The following IXL math skills have been assigned for the summer of 2024:

IXL H.4: Subtract numbers up to three digits
IXL O.1 through 13: Multiplication Skill Builders Facts 6s-12s
IXL X.1: Division Facts up to 12

Due on the First Day of School.

Sincerely,
Christine Holcomb
